Mini Tag

COMPACT ROUND BLUETOOTH TRACKING TAG · ANDROID & IOS

PART No. SL-0001-YI

A compact, lightweight Bluetooth tracking tag for the assets that do not justify a cellular tracker. It works with both Android and iOS, needs no charging, supports 5-minute reporting intervals and keeps a route history you can play back — so you see where an asset has been, not only where it is now.

- Works with both Android and iOS
- Supports 5-minute reporting intervals
- Route history saved and played back in the app or on the Vision platform
- Up to 3 years standby — no charging
- First position in less than one minute

Compact round tag · Ø 37 × 16 mm

PRODUCT MARKINGS CE

37 mm DIAMETER	**16 mm** THICKNESS	**30 g** GROSS WEIGHT	**Up to 3 yrs** STANDBY · NO CHARGING
5 min REPORTING INTERVAL	**15–25 m** INDOOR RANGE	**50–70 m** OUTDOOR RANGE	**Android · iOS** DUAL SYSTEM

- **UK-based support** — Help from our UK team
- **Nationwide installation** — Professional fitting across the UK
- **One platform** — Vehicles, cameras & assets, one login
- **One partner** — Hardware, connectivity & software

Features & benefits

FEATURE — WHAT IT DOES	BENEFIT — WHAT IT MEANS FOR YOU
Frequent updates Supports reporting at 5-minute intervals.	**Current, not stale, positions** See movement through the day, not once a day.
Route history The historical route is saved and can be played back in the app or on the Vision platform.	**See where it has been** Trace an asset's movements, not only its last position.
Long standby Up to 3 years, with no charging.	**Fit and forget** No charging rounds or battery swaps.
Dual system Works with both Android and iOS.	**Works with the phones you have** No restriction on your team's devices.
Fast first fix A first position in less than one minute.	**Live in seconds** Tag it and see it on the map straight away.
Compact and light 37 mm × 16 mm and 30 g, in an ABS housing.	**Fits where a tracker will not** Small enough for tools, cases and accessories.
